

# Glowpoint Sales Engineering Application 1.2

## FT1/T1 GP Network Access with Single VCS Endpoint

**USER NOTES:**  
 Each location will receive a single IP address and E.164 Alias for dialing.  
 Customer sites will be able to call each other up to their FT1 supported video rates.  
 Scheduled calls and multipoint features are available via contacting our GP Bridging Services department via phone or web.  
 User calls using the Public ISDN Accessway incur ISDN long distance charges.  
 Inbound Accessway calls are only billed as GP usage and counts towards customer minimum usage thresholds.

**APPLICATION NOTE:**  
 This deployment design does not allow Local Area Internetworking with customer data network. In this design, the Glowpoint Video LAN is isolated from private networks.
